PROJECT FEATURES

- Cat B Fit-Out
- FCU works
- Collaboration of buildings
- Head end modifications

Following our successful completion of the shell & core BMS project, T.F.Tull we were again appointed to carry out the CAT B fit out works at Kings College London. The public research university is one of a number of projects T.F.Tull have been involved in from the initial shell & core stage, right through to the final fit out works.
